Experience Wellness

Jaquar Spas

Designed to give you more

More economy

An array of energy efficient technologies make our spas more economical to run and easier to enjoy more often without worrying about power consumption.

Cleaner, healthier water

Unlike swimming pools, Jaquar Spas don't use harsh chemicals that can be harmful for the skin. Our spas feature advanced water treatment technologies to ensure the cleanest, clearest water.

A superior experience

Jaquar Spas have superior hydrotherapy performance and features that are usually reserved for the world's most expensive spas.

Guaranteed to last longer

Every Jaquar Spa is hand crafted using industry leading techniques and materials, which is why we can guarantee the spa shell for 10 years.

Easier to maintain

Jaquar Spas give you the ultimate in easy care spa ownership without needing to spend much time on maintenance, or have a degree in chemistry to enjoy crystal clear water.

Technologies that save energy and money

To let you enjoy using them without worrying about the power bill, Jaquar Spas come with a whole range of energy efficient technologies

Intelligent Thermal Regulation

Allows the spa to tune itself to its environment, day-to-day and season-to-season, thus reducing your heating costs by up to 20%.

Cabinet Insulation

Jaquar Spas have insulation in the perimeter of their cabinets to maintain the warmth of the water, and the spa's plumbing and equipment, further reducing your energy costs.

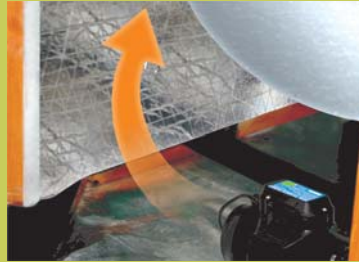

Intelligent thermal regulation

Thermal performance and heat retention is what distinguishes one spa from another. Jaquar's control system adapts and tunes itself to the thermal properties of your spa pool, in its environment, day to day and season to season, to reduce 'on demand' heating.

The control system of a Jaquar Spa actually 'learns' how your spa is used. By reducing the temperature drop required before the heater switches on, it provides more consistent spa water temperatures and lowers daily operating costs.

Cabinet insulation

The insulation system has two features that make it superior to the traditional 'foam on shell' spa insulation system.

By insulating the cabinet instead of the shell, Jaquar Spas not only retain heat from the pumps and equipment, but also insulate the plumbing that otherwise would lose heat to the environment. This results in less overall heat loss and lower running costs. What's more, the insulation reduces the noise of the spa pumps so you will also enjoy a quieter, more tranquil spa experience.

Smart meter ready

Even if your electricity provider does not currently offer smart meters, they soon will. A smart meter allows your electricity supplier to charge higher prices in periods of high demand, but reward consumers who shift their consumption to low demand periods such as overnight.

Using Power Save software, Jaquar Spas can be designed to do the filtering and heating when power costs are at their lowest. Best of all, the control is in your hands. You can tailor the operation of your Jaquar Spa to take advantage of smart meter technology and reduce your running costs.

Purezone Micro Filtration

The top priority of an effective water treatment system is to remove waterborne contaminants. Conventional filters only trap particles up to 50 microns in size

UV sterilisation kills
99.9% of waterborne
viruses and bacteria

A luxurious spa experience

Jaquar Spas have superior hydrotherapy performance and features that are seen in the world's most expensive spas

Hydroflow jets

A Jaquar Spa's hydroflow jets are designed to maximise jet pressure and provide a world-class hydrotherapy experience. We choose from a multitude of directional, spinning and fixed jets to create a different massage action in each seat. Some seats give a broad massage using wide sweep rotational jets, whilst others provide a pinpoint shiatsu style massage.

Ergonomic design

Jaquar Spas are designed to maximise your comfort. Jets are positioned to massage tired muscles. The controls are within easy reach. And relaxation comes automatically.

Easy to operate

Jaquar Spa control systems are intuitive and easy to operate and offer maximum flexibility and control. The top side panel controls most functions with one touch of a button. More advanced controls can be accessed through the simple English menu functions.

Two lounge seats

To avoid arguments over who gets the spa's lounge (usually the most comfortable and most coveted seat in the spa), most Jaquar Spas have two luxurious hydrotherapy loungers.

Individual pressure control

To ensure complete satisfaction for all, each seat in your Jaquar Spa can be controlled with the seat's pressure control dial. In addition, most jets can be individually controlled, directing pressure to where you need it most.

Dynamic lighting options

Flood lighting, jet lights, backlit drink holders and water features, waterline illumination and access lighting can all be added to your Jaquar Spa to enhance your experience. Lighting programs can be controlled using the spa's top side controller.

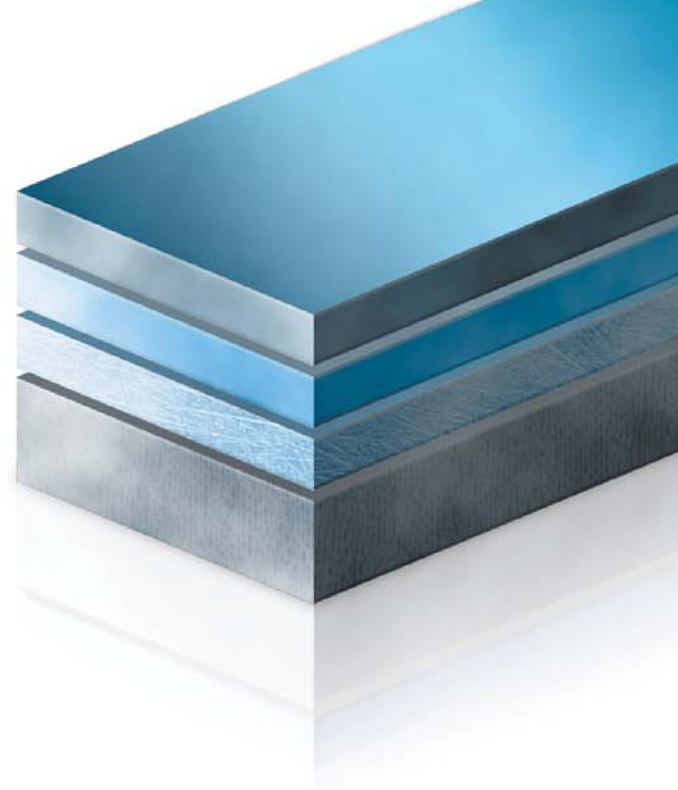

Neck therapy collar

Optional on most Jaquar models, the neck therapy collar incorporates jets specially designed to eliminate stress and tension carried in the neck and shoulder area. Opt for the neck therapy collar to soothe away the stresses of your day.

Thermabond™ 4 layer shell

The key to the life of any quality spa is the spa shell - the only part that cannot be replaced. That's why Jaquar Spas use a 4 layer, 8 step Thermabond lamination process in which the shell is cured in a temperature and humidity controlled oven.

- American made Aristech acrylic for a beautiful finish
- Pure vinyl ester resin for unsurpassed adhesion + waterproofing
- Marine grade resin with glass fibre for torsional strength
- Polyceramic resin for absolute rigidity

10 year structural guarantee

Every Jaquar Spa is guaranteed to last at least a decade. If the spa's structure fails at anytime within the 10-year warranty, under normal usage conditions, it will be replaced with no questions asked.

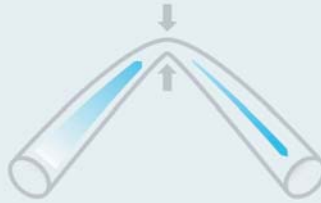

5 year guarantee on jets

Jaquar Spa jets are produced using the highest grade 'virgin' plastics to ensure the longest possible life span. Which is why Jaquar has the confidence to offer a 5-year guarantee on the spa jets.

Duraflex™

Standard flexible plumbing

Rigid plumbing

SV Heaters

To prevent corrosion damage by water and chemicals, a Jaquar Spa heater's element boss and Incoloy element are thickly coated with Teflon™, ensuring a much longer service life. The element is encased in a marine grade, 316 stainless steel heater tube eliminating element failures common with lower quality metal heater tubes.

Set-and-forget controls

The Jaquar Spa controller is the ultimate in control and flexibility. After the initial set up, all that's needed is to turn the jets, air blower and lights on and off. The Jaquar controller will do the rest to keep your spa hot, clean and ready to use 24 hours a day, while minimising energy use and ensuring that the water is crystal clear too.

Contents

Spas

Gemini 210X110 - (2 Seater)	10-11
Neon 206X169 - (3 Seater)	12-13
Mercury 199X199 - (5 Seater)	14-15
Xenon 234X234 - (5 Seater)	16-17
Palladium 352X229 - (9 Seater)	18-19
Aquagym Max Extreme 449X231 - (4 Seater)	20-21
Hydrozone 590X230 - (5 Seater)	22-23

GEMINI

210X110X74 - (2 Seater)

The Gemini is our compact 2 person luxury spa. Despite it's smaller size, it features stainless steel jets, water features and a fantastic lighting package. It uses the same big pump as our larger spas meaning the jet pressure and therefore hydrotherapy is tremendous.

Gemini uses a 2 speed pump and Gecko control system. The pump operates on low speed when in heating and filtering modes and switches to high speed when in massage mode.

Specifications:

Size	210 x 110 x 74 cm
Dry Weight	160kg
Filled Weight	860kg
Water Capacity	700 litres
Spa Controller	Gecko
Jet Pump(s)	2.5x1 hp
Heater	2kW
Electrical Requirements	Max 15 amps

Jets

5" Directional Jet	1
3" Directional Jet	8
Total	9

Features

- Perimeter Insulation
 - Thermobond 4 Layer Shell Construction
 - Duraflex Plumbing
 - Thermoplastic Frame
- Fibreglass Base
 - Underwater Flood Light
 - Backlit Drink Holders
 - Chromo Cascade Grab Bar
- Thermoclad Cabinet
 - Lockable Hardcover

NEON

206X169X82 - (3 Seater)

The Neon offers the maximum amount of hydrotherapy within a compact spa. If you are short of space but still require maximum therapeutic benefit, then Neon is the correct choice.

Specifications:

Size	206 x 169 x 82 cm
Dry Weight	300kg
Filled Weight	1200kg
Water Capacity	900 litres
Intuitive Spa Controller	SV2
Programmable Circulation Pump	350W
Jet Pump(s)	2.5x1 hp
Variable Speed Air Blower	1000W
Variable Output Heater	3kW max
Electrical Requirements	Max 15 amps

Jets

5" Single Hold Spinning Jet	2
3" Spinning Jet	4
2" Directional Jet	10
2" Spinning Jet	18
Volcano Jet	1
Air Jet	16
Water Feature Jet	1
Laminar Jet	2
Total	54

Features

- Extreme Heat Lock Insulation
 - Set & Forget Control System
 - Multi Layer Shell Construction
 - Reinforced Foot Well
 - Noiseguard Sound Dampening
 - Purezone Filtration
 - Programmable Circulation Pump
- 2.5hp (5.2bhp) Jet Pump
 - Twin Accu-Pressure Seats
 - Programmable Multi-Colour Spa Light
 - Moulded Headrests
 - Backlit Water Cascade
 - Water Fall
 - Adjustable Aromatherapy
- Laminar Jets
 - Lockable Hard Cover
 - Foot Jets
 - Illuminated Topside Controls
 - Spa Status Indicator Light

MERCURY

199X199X82 - (5 Seater)

The Mercury is our favourite small family spa. With comfortable seating for 2 adults and up to 3 children, the Mercury is the perfect family choice.

Specifications:

Size	199 x 199 x 82 cm
Dry Weight	300kg
Filled Weight	1580kg
Water Capacity	1280 litres
Intuitive Spa Controller	SV2
Programmable Circulation Pump	350W
Jet Pump(s)	2.5x1 hp
Variable Speed Air Blower	1000W
Variable Output Heater	3kW max
Electrical Requirements	Max 15 amps

Jets

5" Single Hold Spinning Jet	4
3" Directional Jet	10
3" Spinning Jet	4
2" Directional Jet	8
Air Jet	14
Water Feature Jet	1
Total	41

Features

- Extreme Heat Lock Insulation
 - Set & Forget Control System
 - Multi Layer Shell Construction
 - Reinforced Foot Well
 - Noiseguard Sound Dampening
 - Purezone Filtration
- Programmable Circulation Pump
 - 2.5hp (5.2bhp) Jet Pump
 - Twin Recliners
 - Programmable Multi-Colour Spa Light
 - Moulded Headrests
 - Adjustable Aromatherapy
- Lockable Hard Cover
 - Foot Jets
 - Illuminated Topside Controls
 - Spa Status Indicator Light

XENON

234X234X92 - (5 Seater)

The Xenon is our best selling large family spa. With comfortable seating for up to 5 adults and 2 toddlers, the Xenon is the perfect entertaining spa at a great price.

Specifications:

Size	234 x 234 x 92 cm
Dry Weight	330kg
Filled Weight	1980kg
Water Capacity	1650 litres
Intuitive Spa Controller	SV2
Programmable Circulation Pump	350W
Jet Pump(s)	2.5x1 hp
Variable Speed Air Blower	1000W
Variable Output Heater	3kW max
Electrical Requirements	Max 15 amps

Jets

5" Directional Jet	4
5" Double Hole Spinning Jet	2
3" Directional Jet	4
2" Directional Jet	4
2" Spinning Jet	8
Air Jet	20
Water Feature Jet	1
Total	43

Features

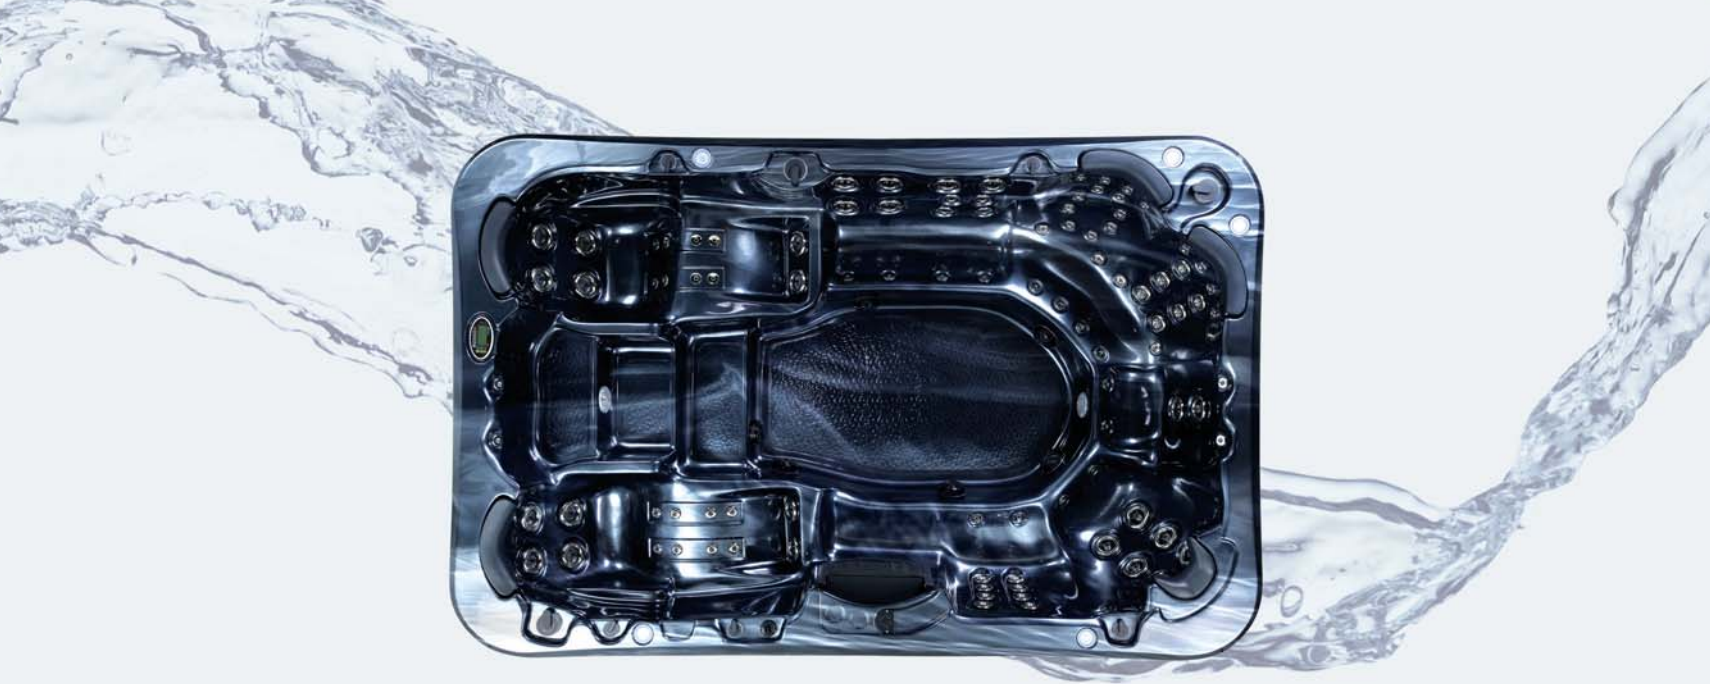

- Extreme Heat Lock Insulation
- Set & Forget Control System
- Multi Layer Shell Construction
- Reinforced Foot Well
- Noiseguard Sound Dampening
- Purezone Filtration
- Programmable Circulation Pump
- 2.5hp (5.2bhp) Jet Pump
- Twin Recliners
- Kiddie Seats
- Foot Jets
- Programmable Multi-Colour Spa Light
- Moulded Headrests
- Backlit Water Cascade
- Wine Cooler
- Adjustable Aromatherapy
- Lockable Hard Cover
- Illuminated Topside Controls
- Spa Status Indicator Light

PALLADIUM

352X229X92 - (9 Seater)

The Palladium is our super size hydrotherapy spa. Offering superior hydrotherapy for 9-10 adults and incorporating dual therapeutic loungers, the Palladium will make the ultimate luxury statement.

Specifications:

Size	352 x 229 x 92 cm
Dry Weight	490kg
Filled Weight	2990kg
Water Capacity	2500 litres
Intuitive Spa Controller	SV3
Programmable Circulation Pump	350W
Jet Pump(s)	2.5x3 hp
Variable Speed Air Blower	1000W
Variable Output Heater	6kW max
Electrical Requirements	Max 40 amps

Jets

5" Directional Jet	6
5" Single Hold Spinning Jet	14
3" Directional Jet	12
3" Spinning Jet	2
2" Directional Jet	24
2" Spinning Jet	8
Air Jet	22
Water Feature Jet	1
Laminar Jet	4
Total	93

Features

- Extreme Heat Lock Insulation
 - Set & Forget Control System
 - Multi Layer Shell Construction
 - Reinforced Foot Well
 - Noiseguard Sound Dampening
 - Purezone Filtration
 - Programmable Circulation Pump
- 3hp (5.2bhp) Jet Pumps
 - Twin Recliners
 - Twin Accu-Pressure Seats
 - Foot Jets
 - Laminar Jets
 - Programmable Multi-Colour Spa Light
 - Moulded Hand Grip
- Moulded Headrests
 - Backlit Water Cascade
 - Adjustable Aromatherapy
 - Lockable Hard Cover
 - Illuminated Topside Controls
 - Spa Status Indicator Light

AQUAGYM MAX EXTREME

449X231X130 - (4 Seater)

With an extra half metre of length, our top selling Aquagym Max offers three levels of performance in a large single zone swim spa, giving ample swim area, whilst providing superior hydrotherapy.

Specifications:

Size	449 x 231 x 130 cm
Dry Weight	995kg
Filled Weight	7995kg
Water Capacity	7000 litres
Intuitive Spa Controller	SV4
Programmable Circulation Pump	350W
Jet Pump(s)	2.5x4 hp
Variable Speed Air Blower	1000W
Variable Output Heater	6kW max
Electrical Requirements	Max 45 amps

Jets

5" Directional Jet	2
5" Single Hold Spinning Jet	3
3" Directional Jet	8
3" Spinning Jet	10
2" Directional Jet	24
2" Spinning Jet	16
Air Jet	14
Water Feature Jet	1
Laminar Jet	4
Swim Jet	4
Total	86

Features

- Extreme Heat Lock Insulation
- Set & Forget Control System
- Multi Layer Shell Construction
- Reinforced Foot Well
- Noiseguard Sound Dampening
- Purezone Filtration
- Programmable Circulation Pump
- Programmable Multicolor Spa Light
- 2.5hp (5.2bhp) Jet Pump
- Hydrotherapy Redliner
- Water Spout
- Dual Controllers
- Moulded Headrests
- Backlit Water Cascade
- Adjustable Aromatherapy
- Lockable Hard Cover
- Illuminated Topside Controls
- Spa Status Indicator Light

HYDROZONE

590X230X130 - (5 Seater)

Our flagship Hydrozone offers benefits of separate therapy/relaxation and swim zones. This gives you the ability to run the exercise zone and hydrotherapy zone at different temperatures.

Specifications:

Size	590 x 230 x 130 cm
Dry Weight	1300kg
Filled Weight	8050kg
Water Capacity	Spa 1750 ltr, Swim 5000 ltr
Intuitive Spa Controller	SV4 + SV2
Programmable Circulation Pump	350 WX2
Jets Pump(s)	2.5x4 hp, 2.5x1 hp
Variable Speed Air Blower	1000W
Variable Output Heater	6 KW max / 3 KW max
Electrical Requirements	Max 60 amps

Jets

5" Directional Jet	2
5" Single Hold Spinning Jet	5
3" Directional Jet	6
3" Spinning Jet	9
2" Directional Jet	10
2" Spinning Jet	12
Air Jet	16
Water Feature Jet	2
Swim Jet	4
Total	66

Features

- Extreme Heat Lock Insulation
 - Set & Forget Control System
 - Multi Layer Shell Construction
 - Reinforced Foot Wall
 - Noiseguard Sound Dampening
 - Purezone Filtration
- Programmable Circulation Pump
 - Programmable Multicolor Spa Light
 - 2.5hp (5.2bhp) Jet Pump
 - Hydrotherapy Recliner
 - Water Spout
 - Dual Controllers
- Up to 4 Swim Jets
 - Moulded Headrests
 - Backlit Water Cascade
 - Adjustable Aromatherapy
 - Lockable Hardcover

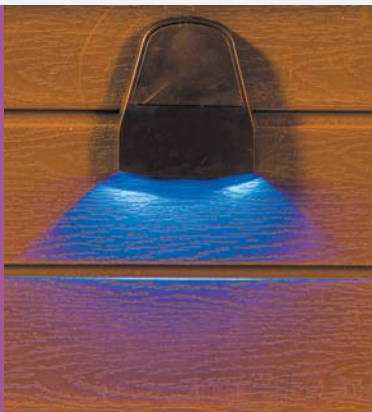

Dynamic lighting options.

For use at night, there are a vast array of illumination options for your spa.

Each option offers more than 20 colour variations and 5 lighting programs so that you can customise your spa's lighting to suit your mood. Even when your spa is not in use, it can create a wonderful water and light display to entertain friends.
